

One-Page Portfolio Identity Kit

Author: Masoom Sakina Track: General AI Fluency (Week 3) Discipline: Machine Learning & Tabular Anomaly Pipelines

1. Typography Selection (Zero Bloat: System & Code Fonts)

HEADINGS & BODY FONT

Inter / System Sans-Serif

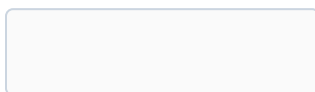

Clean, neutral, and highly legible across dense numerical tables and model receipts. Weights: Bold (700) for headlines, Regular (400) for body text.

MONOSPACE / METRIC FONT

JetBrains Mono / Code Mono

Dedicated for code blocks, F1 scores (0.7219), confusion matrices, and Pandas data contracts.

2. Tight 4-Color Palette (Hex Codes & Intentional Hierarchy)

			
Primary Brand #1E3A8A Deep Slate Navy (Headers)	Near-Black Text #1A202C Body Text (High Contrast)	Near-White Canvas #FAFAFA Background & Cards	Single Accent #0284C7 Action / Links / Metrics

3. Logo, Wordmark & Favicon (Simple & Legible)

Favicon Specification:
32x32 SVG • Deep Navy Base • Sky Accent Border

4. Two-Line Standing Style Note (For Claude Project Instructions)

Typography: Inter (Body/Headings) + JetBrains Mono (Code/Metrics) | Palette: #1E3A8A (Primary Navy), #1A202C (Text), #FAFAFA (Background), #0284C7 (Sky Accent).

Mood: Grounded, analytical, and mathematically defensible – quiet visual framing so the machine learning data contracts and validation tables remain the loudest elements on the page.

Claude Project Integration: Added as a standing rule to Claude Project "Portfolio Build - AI Fluency" to guarantee all future case studies, HTML widgets, and markdown artifacts automatically inherit these exact visual tokens.
